Alteration notes

For a longer or shorter Hat, adjust the amount of knitting done after the crown shaping – add an extra 3 in/7.5cm or so for a fold up brim.

To alter the circumference, should you wish for a larger or smaller head size or to adjust for a difference in gauge, the pattern is worked on multiples of 12 sts and you should end the increasing after a M1P increase round to ensure an even K1, P1 rib for the body.

Ending the crown increasing after a M1 increase round is not advised, as this will leave you with a K2 at the 6 increase points on the Hat, and will not make for an even K1, P1 rib.

If you are working with a different gauge yarn, that's no problem, and it's easy with a top-down knit to adjust the crown increases to suit your yarn. You'll need an idea of how many stitches per inch your yarn gives in stocking stitch and an approximate size of the recipients head (remembering to allow for roughly 2 to 3 inches/ 5 to 7.5cm of negative ease)
If you multiply the head measurement less the negative ease by the number of sts per inch, you'll get the no. of sts you're aiming for after increases, so just

stop increasing at the closest point given in the pattern! It's fairly simple to do, and if in doubt, try the Hat on.

Specialist Techniques

Body (& Brim)

Next rnd: *K1, P1; rpt from * to end

Repeat this round, forming 1 x 1 ribbing, until Hat measures approximately 6 [7, 8, 9] in/15.24 [17.75, 20.25, 23] cm from crown with the ribbing unstretched; 8 [9, 10, 11] in/15.25 [17.75, 25.5, 28]cm for a folded Brim. Cast-off very loosely. An elastic bind-off is recommended.

Finishing

Weave in all ends. A gentle wash and blocking is recommended.
